👤 Profile

Objective: Detail-oriented and highly skilled Front End/Full Stack Developer with a solid track record of designing and implementing efficient and user-friendly web applications. Utilizing a strong understanding of HTML, CSS, JavaScript, and responsive design principles, I strive to deliver visually appealing and seamless user experiences. Committed to continuously learning and adapting to evolving technologies while collaborating effectively within cross-functional teams to deliver outstanding results.

💼 Work Experience

01/2021 – present

Full Stack/ Front End Developer
Maddison Digital

1. Spearheaded the development of a r**esponsive web application using HTML, CSS, and JavaScript**, resulting in a **notable 20% increase in user engagement** and a **remarkable 15% decrease in bounce rate.**
2. Collaborated with a cross-functional team to successfully implement the **Agile methodology**, resulting in a stellar **30% improvement in project delivery time** and a significant increase in overall team productivity.
3. Led meticulous **code reviews and executed extensive refactoring** to r**educe page load time by an impressive 40%** and significantly **enhance overall site performance.**
4. Collaborated with cross-functional teams to translate **wireframes and design concepts into visually appealing and functional web interfaces**, adhering to best practices and accessibility standards.
5. Collaborated with **cross-functional teams** to design and develop **scalable APIs and backend systems**, utilizing technologies such as **Django, Flask and MongoDB**, resulting in streamlined data retrieval and enhanced application performance.
6. Conducted **thorough code reviews, identified and resolved bugs and performance issues, and implemented best practices**, resulting in a 20% **reduction in application crashes and improved overall system stability.**
7. **Provided technical expertise** and support to stakeholders, **effectively communicating** complex technical concepts in user-friendly language, resulting in **increased client satisfaction and successful project implementations.**
8. Led the implementation of **modern front-end frameworks** such as **React.js, optimizing page load times** and **enhancing the overall user interface**
9. Collaborated with cross-functional teams to design, implement, and **deploy innovative features and enhancements**, contributing to the overall **improvement of the product.**
10. **Version Control** using **Github** and **Visual Studio Code.**
